MEET CLAIRE

My approach to venue decoration is guided by the same instinct and care that shape my floral design. What began as a childhood fascination with flowers has grown into a lifelong passion for creating spaces filled with beauty, meaning, and seasonal charm.

Just as each floral arrangement is crafted with intention, this Hire & Style Guide has been curated to support your wedding styling needs and to enhance your venue with thoughtful, elegant touches that feel both cohesive and considered.

Whether it's soft candlelight to warm a ceremony space or delicate bud vases to dress each table, every item has been chosen to reflect the same personal, nature-led aesthetic that underpins my work.

Above all, I want my couples to feel understood and supported. That means clear pricing, flexible options, and a seamless setup that aligns with your vision — all without unnecessary packages or pressure.

From your first enquiry, I bring calm, clarity, and collaboration to the process — offering decoration that feels effortless, refined, and unmistakably yours.

Seasonality & Sustainability

Local and Seasonal

From April - October, I prioritise British-grown flowers, sourcing sustainably from trusted local growers wherever possible. Choosing what's in season not only reduces environmental impact but allows me to create untamed, natural arrangements that feel fresh, characterful, and perfectly in tune with your setting and time of year.

Plastic Free

Wherever possible, arrangements are created using reusable mechanics, avoiding floral foam and single-use plastics. Sustainability is an ongoing journey, and I'm always refining my approach to ensure each design is as considered for the planet as it is for your wedding day.

Complete Transparency

Clear, honest communication underpins everything I do. From pricing to design choices, you'll always know what to expect, with no hidden costs or surprises, just beautiful, considered florals delivered with integrity.

Some things to consider when adding styling with

YOUR WEDDING FLOWERS

01. Are hiring items cheaper than me purchasing my own?

Often, hiring styled props and décor items works out cheaper (and easier!) than purchasing everything yourself.

02. Cohesive look & styling expertise

We have a beautiful collection of styled props designed to complement your florals, and we take care of the full service – from installation to collection the following day – so you can simply relax and enjoy your celebration.

03. Hidden extras

When you buy your own items, don't forget to factor in the costs of time, cleaning, and reselling afterwards — hiring keeps it simple.

04. Sustainability

Hiring means items are reused across many weddings, reducing waste and supporting a more eco-conscious approach.

05. Storage & transport

If you purchase your own items, you'll need to arrange storage, delivery to the venue, and collection afterwards — hiring removes these logistics.

06. Quality & finish

Professional styling props are often higher quality than what's available to buy on a budget, helping elevate the overall look of your day.

THE NEXT STEPS

Build your requiriements list

If you are interested in any of the items in this guidebook, please get in touch with your requirements via email and we will be happy to check availability for you. All styling will be carefully set in the agreed locations throughout The Great Barn, ensuring each space feels beautifully finished for your celebration. Following your wedding, The Hibiscus team will return to collect the hired items the next day, so you can simply relax and enjoy everything this wonderful venue has to offer.

You are welcome to add extras later, but starting with your key requirements is a great first step. If you have any questions or are unsure about anything, I'm here to guide you through the process and support you every step of the way.
